Dear Susan,

What a great dream you are setting in motion today for Wyoming children! And what a wonderful way to honor and remember Craig. I know that he must be looking down on this event and is so pleased with your efforts, this foundation and his legacy to our children.

I truly wish I could be with you on such a special day. With your know-how and determination, this foundation will help so many young people become productive members of society here in Wyoming or elsewhere, if they choose.

Please let me know if there is anything I can do to assist in your valuable efforts. I would be honored and privileged to help. You are an incredible woman and an inspiration for every one of us.

Best wishes,
